ENCLOSURES (NO. & TYPE)

REMARKS

25X1

25X1

1. The Vysoke Myto (O 50/N 08) airfield was located southeast of the town, just east of the road to Litomysl (O 50/N 17), about 700 meters north of Na Hartech (O 50/N 08). The field, which extends along the road for about 3,000 meters, has a width of about 150 meters. The field was bordered by woods to the east. Two wooden hangars each about 40 x 20 meters and a guardhouse were observed at the eastern edge of the field, the boundaries were marked by red-white wooden boards. A target range and an ammunition dump were located in the woods. A military training field adjoins the field on the north. *

25X1

2. The field, which has been used as a training installation by the Aero Club, was occupied by two or three Storch or Sokol Type planes. A detail of about 10 soldiers, presumably a guard detail, was occasionally seen marching to the field ☐

3. A barracks installation built in the form of a rectangle and occupied by soldiers wearing blue air force uniforms was located east of the Vysoke Myto railroad station.

25X1

4. The airfield, located southeast of Vysoke Myto, which was built during World War II, covers an area of approximately 3,000 x 500 meters. It cannot be enlarged. Two wooden hangars were seen at the edge of the field. A target range and an ammunition dump were located in the woods east of the installation. *

5. Buildings occupied by soldiers wearing blue air force uniforms were located about 200 meters from the Vysoke Myto railroad station.

6. Other barracks buildings occupied by air force soldiers were located north of the Vysoke Myto-Vanice (O 50/N 08) and west of the Vysoke Myto-Hrusova (O 50/N 08) roads.
